Summary

I am a dedicated problem solver who is able to work in **multiple mediums of design** such as graphic design, motion graphics, video editing and more! I am able to see a project from start to finish with **pristine time management**. Being able to work in a team with multiple moving parts is also a strength of my skillset. With a **keen eye for design principles**, I am able to leverage my **software knowledge and experience** to come up with something truly special and unique.

Experience
